*Caring for the growing  
needs of our community*

## Rural Hospital Closures

Texas rural hospitals continue to close with 21 closing, permanently or temporarily, since January 2015. Only about half of the Texas rural hospitals receive any local tax support.

## Why now?

The current \$0.25 tax cap, established 25 years ago, has an equivalent economic value of only \$0.15 today.

## Why the election?

The election allows the Hospital District to increase the tax cap (not tax rate). If the Hospital District increases the current amount, it will only be at a rate of \$0.02 per year over the next 5 years.

Any rate increases will be minimal and those 65 or over will get an offset in their Homestead exemption. This means those 65 and over will not see any tax increase.
